12 oz. Bend, Oregon • 6.4% abv

Hello from Route 40!

This menu was specifically designed with *the to go factor* in mind. All items "heat and eat" at home nicely.

With each container, you will find heating instructions for the oven, or microwave. Oven heating happens in 35 minutes or less, while microwave heating takes place with all dishes in 10 minutes or sooner.

We have spent considerable time testing each dish to ensure the highest quality taste and texture after heating at home.

All dishes are already fully cooked and can be eaten cold as well. *We actually think all the dishes on our menu are great cold as well!*

We make everything fresh each day on a limited basis.

**Use the QR Code on the left to order from home, or while at the restaurant.**

At the present time, with so many COVID concerns, we do not accept cash. Napkins and plasticware available upon request.

Thank you for your business, we appreciate your support! ~ Mark Whistler
